Contents of volume 14

Volume 14 Number 1 — January–February 1999

Editorial	*L. J. Kricka (Editor-in-Chief)*	1
Review	**Autoinduction of light emission in different species of bioluminescent bacteria** *E. A. Meighen*	3
Original Research		
Instrumentation	**Optimal use of photomultipliers for chemiluminescence and bioluminescence applications** *R. J. Ellis and A. G. Wright*	11
	Application of a new high sensitivity luminometer for industrial microbiology and molecular biology *P. E. Andreotti and F. Berthold*	19
Bioluminescence	***In vitro* development of *Staphylococcus aureus* biofilms using slime-producing variants and ATP-bioluminescence for automated bacterial quantification** *E. Gracia, A. Fernandez, P. Conchello, J. L. Alabart, M. Perez and B. Amorena*	23
	Evaluation of two methods for monitoring surface cleanliness—ATP bioluminescence and traditional hygiene swabbing *C. A. Davidson, C. J. Griffith, A. C. Peters and L. M. Fielding*	33
Literature Reviews	**Bioluminescent fusion conjugates and bioluminescent immunoassays: 1988–1998** *L. J. Kricka, J. Stroebel and P. E. Stanley*	39
	Time-resolved fluorescence: 1996–1998 *L. J. Kricka and P. E. Stanley*	47
Internet Review	**Luminescence on the Internet** *J. Stroebel, L. J. Kricka and P. E. Stanley*	63

Volume 14 Number 2 — March–April 1999

Editorial	*L. J. Kricka (Editor-in-Chief)*	67
Original Research	**Construction of a recombinant herpesvirus expressing the jellyfish green fluorescent protein** *Z. Boldogköi, F. Erdélyi, A. Sik, T. F. Freund and I. Fodor*	69
	Enhancement of aminophthalhydrazides chemiluminescence by *N*-β-alanyl-l-histidine (l-carnosine) *K. E. Achyuthan*	75
	Effect of antioxidants on induction time of luminol luminescence elicited by 3-morpholinosydnonimine (SIN-1) *C. Pascual and K. Reinhart*	83

Optimization of phagocyte chemiluminescence measurements using microplates and vials
P. Hengster, M. Kunc, R. Linke, T. Eberl, W. Steurer, D. Öfner, F. Berthold and R. Margreiter 91

Weak light emission patterns from lactic acid bacteria
R. Vogel and R. Süssmuth 99

Literature Reviews

Sonoluminescence: 1996–1998 107
L. J. Kricka, J. Stroebel and P. E. Stanley

Electrochemiluminescence: 1996–1998
L. J. Kricka and P. E. Stanley 113

Luminescence News

April 1999 119

Volume 14 Number 3 May–June 1999

Original Research

Chemiluminescent detection of catecholamines by generation of hydrogen peroxide with imidazole 123
O. Nozaki, T. Iwaeda, H. Moriyama and Y. Kato

Modulation of luminol chemiluminescence of fMet-Leu-Phe-stimulated neutrophils by affecting dephosphorylation and the metabolism of phosphatidic acid 129
J. Arnhold, S. Benard, U. Kilian, S. Reichl, J. Schiller and K. Arnold

Chemiluminescence of ABEI-labelled IgG triggered by the *N*-chloramine-/H_2O_2/*p*-iodophenol system 139
S. Olszowski, E. Olszowska, T. Stelmaszyńska and A. Krawczyk

Comparison of relative photon flux from single cells of the bioluminescent marine bacteria *Vibrio fischeri* and *Vibrio harveyi* using photon-counting microscopy 147
C. B. Phiefer, R. J. Palmer Jr and D. C. White

The phagocyte chemiluminescence paradox: luminol can act as an inhibitor of neutrophil NADPH-oxidase activity 153
J. Fäldt, M. Ridell, A. Karlsson and C. Dahlgren

Luminous bacteria cultured from fish guts in the Gulf of Oman 161
J. C. Makemson and G. V. Hermosa Jr

Photochemiluminescent detection of antiradical activity. VI. Antioxidant characteristics of human blood plasma, low density lipoprotein, serum albumin and amino acids during *in vitro oxidation* 169
I. Popov and G. Lewin

Inhibition of luminol and lucigenin chemiluminescence by reducing organic compounds 175
H. Cui, R. Meng, H. Jiang, Y. Sun and X. Lin

Literature Reviews **Lyoluminescence: 1977–1998** 183
L. J. Kricka, J. Stroebel and P. E. Stanley

Luminescence News **May–June 1999** 187

Volume 14 Number 4 July–August 1999

Original Research **Practical enzymology course based on bioluminescence** 189
V. A. Kratasyuk and I. Y. Kudinova

Bioluminescent water quality monitoring of salt lake Shira 193
V. A. Kratasyuk, E. V. Vetrova and N. S. Kudryasheva

Bioluminescent method to determine non-specific endotoxicosis in therapy 197
E. N. Esimbekova, V. A. Kratasyuk and V. V. Abakumova

Mechanisms of the effect of xenobiotics on bacterial bioluminescence 199
N. S. Kudryasheva

Review **Commercially available fluorometers, luminometers and imaging devices for low-light level measurements and allied kits and reagents: survey update 6** 201
P. E. Stanley

Literature Reviews **Triboluminescence: 1968–1998** 215
L. J. Kricka and P. E. Stanley

Fluorescence in situ hybridization: 1998 221
P. E. Stanley and L. J. Kricka

Luminescence News **July–August 1999** 231

Volume 14 Number 5 September–October 1999

Obituary **In Memoriam: Gordon Sydney Anderson Birnie Stewart (1951–1999)** 235
P. Hill and P. Stanley

Original Research **Effect of linear polarized near-infrared ray irradiation on the chemiluminescence of human neutrophils and the serum opsonic activity** 239
M. Shiraishi, K. Suzuki, S. Nakaji, K. Sugawara, N. Sugita, K.-J. Suzuki and S. Ohta

Low-level chemiluminescence of *N*-β-alanyl-L-histidine (L-carnosine) 245
K. E. Achyuthan

Improved extraction and assay of mycobacterial ATP for rapid drug susceptibility testing 255
S. Hoffner, C. Jimenez-Misas and A. Lundin

Analysis of river water by bioluminescent biotests 263
A. M. Kuznetsov, E. K. Rodicheva and S. E. Medvedeva

Transfer of xenobiotics through cell membranes of luminous bacteria 267
S. E. Medvedeva

Literature Review — **Assays using digital fluorescence: 1985–1998** 271
L. J. Kricka and P. E. Stanley

Volume 14 Number 6 Novembe-December 1999

Special Issue: Luminescence Studies in Japan

Editorial — *M. Maeda* 281

Review — **Practical methods for detection of nitric oxide** 283
T. Nagano

Original Research — **Bioluminescent monitoring of intracellular ATP during fermentation** 291
H. Funabashi, T. Imajo, J. Kojima, E. Kobatake and M. Aizawa

Chemiluminescence of 2-methyl-6-arylimidazo[1,2-*a*]pyrazin-3(7*H*)-one in protic solvents: electron-donating substituent effect on the formation of the neutral singlet excited-state molecule 297
K. Teranishi, M. Hisamatsu and T. Yamada

Investigation of cyclomaltooligosaccharide-bound 6-(4-methoxyphenyl)imidazo[1,2-*a*]pyrazin-3(7*H*)-one for enhanced chemiluminescence 303
K. Teranishi, S. Tanabe, M. Hisamatsu and T. Yamada

Chemiluminescence properties of soybean protein fraction in the hydroperoxide and hydrogen donor system 315
Y. Yoshiki, T. Yamanaka, K. Satake and K. Okubo

Detection of free radicals generated from hydrogen peroxide, gallic acid and haemoprotein chemiluminescence system by electron spin resonance spectroscopy 321
M. Kawane, T. Iida, Y. Yoshiki, K. Okubo and M. Tsunakawa

Effect of decaglycerol mono-oleate on chemiluminescence of human neutrophils 327
Q. Liu, K. Suzuki, S. Kudo, M. Yamada, K. Kowatari, T. Umeda, S. Nakaji and K. Sugawara

Applicability of chemiluminescence to assess the degree of operative stress in patients undergoing spinal surgery 331
K. Kowatari, K. Suzuki, S. Kudo, M. Yamada, Q. Liu, K. Danjo, T. Umeda, S. Nakaji and K. Sugawara

Contribution of nitric oxide synthase to human neutrophil chemiluminescence 335
S. Kudoh, K. Suzuki, M. Yamada, Q. Liu, S. Nakaji and K. Sugawara

Synthesis and chemiluminescent decomposition of spiro[1,2-dioxetane-3,6′-benzo(*c*)chromene]s 341
M. Matsumoto, M. Kawahara and N. Watanabe

Synthesis of 3-ethoxy-4,4-diisopropyl-1,2-dioxetanes bearing a benzo(*b*)furan-2-yl or a benzo(*b*)thiophen-2-yl group: CIEEL-active dioxetanes emitting red light 345
M. Matsumoto, T. Hiroshima, S. Chiba, R. Isobe, N. Watanabe and H. Kobayashi

Selectivity and sensitivity in the measurement of reactive oxygen species (ROS) using chemiluminescent microspheres prepared by the binding of acridinium ester or ABEI to polymer microspheres 349
S. Hosaka, T. Itagaki and Y. Kuramitsu

Development of novel high-sensitivity chemiluminescence assay for luminol using thiourea derivatives 355
K. Ohno, H. Arakawa, R. Yoda and M. Maeda

New phenylboronic acid derivatives as enhancers of the luminol–H_2O_2–horseradish peroxidase chemiluminescence reaction 361
N. Kuroda, K. Kawazoe, H. Nakano, M. Wada and K. Nakashima

Aminopyrazine analogues as chemiluminescence derivatization reagents for pyruvic acid 365
M. Sakata, N. Sakata, Y. Ohba and K. Zaitsu

Total free catecholamines assay by identification of its two functional groups and micro-flow injection chemiluminescence 369
O. Nozaki, H. Kawamoto and H. Moriyama

A study of the fluorescence measurement using a 96-well microplate by a remodelled parallel luminescent measuring system 375
T. Kumae
